

**Amendments to the Specification:**

Please amend the Title on page 1 of the Specification as follows:

**CHEMICAL COMPOUNDS**

**PYRIMIDINE DERIVATIVE INHIBITORS OF ERBB FAMILY KINASE**

Please amend the paragraph beginning on line 21 of page 115 as follows:

The method measures the ability of the isolated enzyme to catalyse the transfer of the  $\gamma$ -phosphate from ATP onto the tyrosine residue of a biotinylated synthetic peptide (biotin-Ahx-RAHEEIYHFFFAKKK-amide). The amino acid sequence of this peptide is shown in SEQ ID NO:1. The extent of tyrosine phosphorylation was measured using an anti-phosphotyrosine antibody, and quantified by homogenous time-resolved fluorescence (HTRF).
